The Contention for Concessions to Be Ended.

Outlanders in the Transvaal Petition the Queen for Relief.

Mr. Chamberlain Sanctions Strong Measures-Mr. Salisbury for Peace -Rhodes and His Schemes.

London, April 29 .- The "Morning Post" has a special telegram from Berlin, giving the details of the Anglo-Russian agreement in China, which Mr. Goschen lately said was under negotiation, and which was signed yesterday at St. Petersburg. The British Government undertakes not to press concessions, railway or other, in

the north, and the Russians agree to the British demand that no part of the basin of the Yangtes be alienated. Russia recog-aires explicitly that British commercial interests are supreme in the Yangtse region.
The alm of the agreement is to put an end to the battle of concessions, railway and other, which has been raging for the last two years. The Russian object is to be tempted to shake hands with the Dutch avoid a conflict in China, which would interfere with the successful exploitation of to look after itself. That, however, may spent enormous sums, with practically no return; also to get money from Great Britain for the development of her industries at home. Russia may also wish to obtain greater freedom elsewhere, probably in Ferzia, where Russia is anxious to ob-

It would not be South Africa if the really simple issue, namely, the grant of equal citizen rights for the British as well as the lutch subjects in the Transvaal, were not overlaid by intrigue and underground politics on both sides. On the one hand, the honest rustic Boer is used as the duemy because

Chamberlain has, to my certain knowledge, within the last few days made an earnest appeal to Lord Salisbury to give the fullest practical support to the Outlanders, and, no doubt whatever he himself is quite prepared to do now what he was prepared to do in 1896 in the way of an appeal to force, but Lord Salisbury, with all his quiet stubbornness, blocks the way. "Do what you will, Mr. Chamberlain," he says, "but no breach of the peace, mind."

Chamberlain has, to my certain knowledge, with all women should not be qualified to serve as mayors; thirdly, that they should not be qualified to act as aldermen. Only the councilor rank remained, and the House was about to decide that women should not serve as councilors either, when Mr. Balfour pitfully begged members to pause and not expose Parliament to ridicule by contradicting fiatly and plecemeal its first decision. So woman's preme Court of the District during the suffrage in its latest phase is indefinitely. force, but Lord Salisbury, with all his quiet stubbornness, blocks the way. "Do what you will, Mr. Chamberlain," he says, "but no breach of the peace, mind."
That is the position today, and the Outlanders can only hope that the ominous news arriving from Cape Town, Kimberley, and Johannesburg, and the pressure of sympathy which has been invited, from Canada and Australasia, may stir the English premier into more bellicose mood. If they succeed you will one early morning they succeed you will one early morning read that Mr. Chamberlain has in a public speech delivered one more ultimatum to President Kruger, more caustic and emphatic than any that has gone before, and that so many British redcoats are on their way to the Cape on emergency service. The tales current in London this week that the South African garrisons have already been increased this year are quite mistaken. For four years the number has been and still is 9,000. It is just for Lord mistaken. Salisbury's sanction to increase these 3,000 that the South African crisis waits before breaking. Meanwhile news from independent quarters at the Cape point to a growing movement among the Dutch in Cape Colo-ny, the Orange Free State, and the Trans-vani toward a federal republic. The result of the approaching conference of the States is awaited anxiously here, and not a few say that Mr. Rhodes himself is angered by what he deems the nigardly treatment which the Imperial Government has meted out to his Cape-to-Cairo railways, and may the Siberian Railway, on which Russia has be a mere threat, designed to bring Eng land's unemotional Chancellor of the Ex-chequer into line. All things considered, South Africa is giving the Ministers sleepless nights just now.

There still seems to prevail in the United States a notion that England is hastening toward protection, and the persistent agi-tation of a group of West Indian merchants here for countervaling duties against
French bounty-fed sugar is used to support
the motion. For the benefit of the creduious it may be well to quote what the
Chancellor of the Exchequer said last night
in the House of Commons in relation to the new wine duties and Australia's demand for exemption. He said: "The return to differential duties would be a change of on both sides. On the one hand, the honcet rustic Boer is used as the dummy horse

Thursday's debate in the House of that anything may happen. The immediate cause of this week's commotion is the receipt by the Cabinet council of the monster petition of 21,000 British subjects in the Transvaal, appealing to the Queen to use her rights as paramount power, to secure redress of the Outlander grievances, and especially to get for them such a franchise as the Dutch possess in Cape Colony.

Mr. Chamberlain is heart and soul with the petitioners. He would, if he had his way, send 10,000 British soldiers to Cape Colony tomorrow, certain that this one act would, without shedding a drop of blood, give the Outlanders what they seek. FAREWELL TO ACTON.

A Token of Esteem to the Popular

First Precinct Sergeant. Possibly nothing has occurred in the history of the First police precinct to cause more pronounced regret than the transfer of Sergt. Joseph Acton, which takes effect today. He has been in the precinct for a number of years, and has not only been an efficient officer, but a popular one. In order to show in what esteem they held the sergeant, the policemen of the precinct de-cided to present him with a slight token. Yesterday, when the policemen assembled at the stationhouse at 6 o'clock, Sergeant Acton took charge of them as he has been accustomed to do for many years. He was giving his farewell orders, and his voice filled with emotion as he pronounced each word. When he had concluded, after orlering the men to break ranks, he was surprised to see the men still in line, and ore surprised when Lieutenant Amies stepped forward and said that there was

The lieutenant then, in a few well chosen words, told the sergeant of the sorrow and regret felt by the men and himself at the loss of such an honorable man and faithful policeman. "You have endeared yourself," said Lieutenant Amiss, "to the of this precinct, and every man here is sorry that you are going to leave us." The lieutenant then handed to Sergeant Acton a blue plush jewel case, which con-tained a handsome solid gold watchchain, with a diamond set gold charm attached. The chain is a costly one, made of heavy solid links, and is not only beautiful in design, but serviceable. The charm has a diamond setting, and the inscription, "To Sergeant Acton: From the Officers of the First Precinct, as a Token of Their Esteem".

Known as Jacob D. Liberty. A petition was filed yesterday on the

equity side of the Supreme Court of the District by Jacob D. Goldsmith, asking the court to grant him the privilege of chang ing his name to that of "Jacob D. Lib erty." He gives as a reason the fact that his brother and bimself personally resem ble each other very closely, and that the are engaged in the same business. Fre-quently, he says, his patrons place orders with his brother, and bills contracted by the latter have been sent to the petitioner to his great annoyance.
